

**TABLE MOUNTAIN
CREATIVE CONCRETE**

Table Mountain Creative Concrete is a family owned and operated business specializing in staining, engraving, overlaying and stamping established concrete.

PROJECT PROFILE: RESIDENTIAL DRIVEWAY

Residential Driveway Westminster, Colorado 2007

Table Mountain Creative Concrete used a number of different techniques to apply the overlay and color to this 1,816 square foot driveway in Legacy Ridge. The Miracote MPC overlay on the base was sprayed, knocked down and topically stained. The brick pattern at the expansion joints was taped and texture troweled using several different colors of MPC. A solvent-based sealer and slip resistant additive provided the final finish.
